

## **Minutes from 14 October, 2014**

Again, great job to everyone who volunteered for the Simulated Emergency Test. Many organizers of the event have expressed gratitude for our assistance and contribution, and I want to make sure to pass that appreciation on to all who participated with us on Friday.

### **Note for members wishing to upgrade or receive licenses**

Next Wednesday, the 22nd of October, there will be a license testing session in 235 Broun Hall. Bring \$15 and a pencil if you wish to participate. Until then, study the [question pool](#) and do some [practice tests](#) so you'll know what you need more help with.

### **School Club Roundup (We're doing it!)**

- Contest put on by ARRL twice a year
- Fall Edition runs from 8:00 Central time on Monday, October 20, to 18:59 Central time on Friday, October 24
- Use the paper log in the shack to track stations worked and time spent on air; we'll submit info electronically at the end
- Rules can be found here: <http://www.arrl.org/school-club-roundup>

### **Other Upcoming Events**

- Radio Club as Guest Lecturers in Dr. Wentworth's ELEC 3030 Lab Lecture: Monday, November 10th at 14:00
- Radio Club table at Junior Mad Scientist Day: Monday, October 27th from 17:30-19:30
- We'll be ironing out details at the next meeting, October 21st.

- SueAnne Griffith, KK4UWV, AUARC Vice President
